

Update report for Global Giving_Jan to March 2020

Graphs and Analysis:

It is evident from the above graph that there has been an improvement in the areas of Teacher-Student Interaction, Teaching-Learning methodology and Assessment. The teachers have progressed to the next level (score range between 0.67 – 1).

Since the schools had new teachers towards the fag end of the project, they need support in the area of Lesson planning – hence we can notice a dip of 0.01 in this domain. This is primarily due to some of the coachees were transferred to different schools and the new set of coachees needs some more time to understand various aspects of lesson planning. Coaches are working consistently towards this.

Teachers have progressed in the area of Physical Classroom Environment also. Their black board writing has improved, and some teachers are providing opportunities for the children to display their work in the classrooms.

Testimonials from teachers

“Group work techniques is helpful for us to improve student learning in schools. Through this training, we learnt how to distribute work for students when they are in groups and the method of assessing their work”.

- Sri. Madlimutt, HM, GHPS Gotagodi, Shiggaon taluk, Haveri district.

“Use of Ice Cream sticks has helped me encourage questioning skills among the students.

- Sri. M L Naikoda, Coach, GHPS Thimmapura, Shiggaon taluk, Haveri District.
