

COMMUNITY DOME

**<< We use the art of playing
as a tool for community transformation,
to promote the abilities of children and youth,
inspiring them to be agents of change >>**

Supporting the construction of the *dome* is contributing to the social cohesion of the community of Altos de Cazuca. The *dome* will be placed next to our football pitch where more than 300 children train weekly, and will be used as a safe place for art and music activities, training sessions se colocará en el terreno junto a la actual cancha sintética and meeting points. This place will be vital for the continuous growth of Tiempo de Juego.

BENEFITS OF A GEODESIC DOME

- Efficient structures
- The strongest shield for humans
- Less material used in the construction
- Very resistant to earthquakes
- Supports strong winds up to 320 km/h
- Requires less energy to warm up the space
- Stores solar heat within the space

BENEFITS OF A COMMUNITY DOME

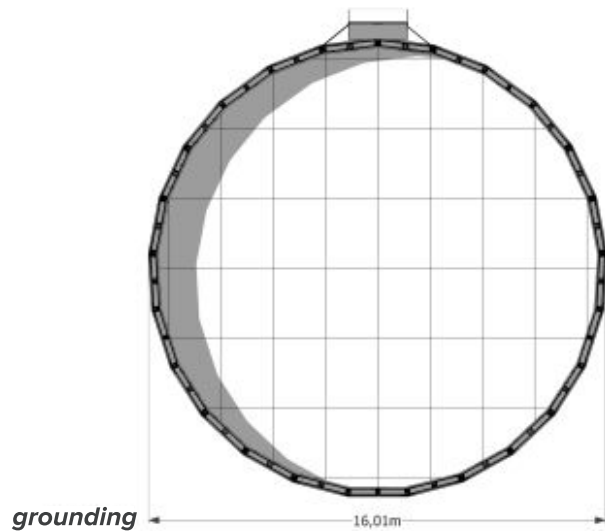

- Space for up to 100 people
- Safe meeting point
- Useful no matter the weather
- Multipurpose (art, music, meetings, etc)
- A space to meet with families
- Visible for the community
- Allows organizational growth

The objective of building the Community Dome is to host safe artistic and sports activities for more than 1500 children and youth, allowing them to develop Life Skills and build better life projects. The Dome in the community of Altos de Cazuca, Soacha, will be contributing to the following Sustainable Development Goals:

FINANCIAL PLAN

Tiempo de Juego has landed USD 10.000 by involving other institutions and people in the dream. And we compromise to continue fundraising for the dome, or paying USD 10.000 if needed. **We hope Wings of Support is willing to join the dream by donating USD 30.000 in order to build a community dome (which can be relocated if needed!) that will offer a safe place to learn to more than 1200 children!**
