

Adopt A Classroom in Türkiye

2024-2025
Educational Set Catalog

Would you like to transform a village classroom today?

Many teachers across Turkish villages, faced with limited resources, turn to BTF for support to enhance their students' classroom learning experiences. Through our **Adopt A Classroom in Türkiye** program, we bridge the gap between your charitable contributions and these teachers, ensuring that your donations are transformed into much needed educational materials and delivered directly to the doors of their schools!

Each set in this catalog was thoughtfully curated by BTF's volunteers, guided by meaningful conversations with teachers who have shared their schools' specific needs with us since 2007.

Teachers in rural Türkiye need your help. Be their hero today for as little as \$25.

Adopt A Classroom in Türkiye is a program designed to equip under-resourced schools throughout rural Türkiye with crucial educational supplies. By enhancing the classroom learning experience and improving teacher effectiveness, this program serves as a vital support system not only for students but also for educators.
