

WHAT IF YOU COULD FRANCHISE **HOPE?**

The HealthStore Foundation's CFW franchise network of medical clinics in Africa is an innovative way to extend quality healthcare to the bottom of the economic pyramid. Already serving over half a million people per year, HealthStore is pursuing an ambitious international expansion plan:

KENYA Grow our flagship CFW network from 82 to a self-sustaining 300-400 medical clinics, using social venture capital investments.

RWANDA Expand our CFW network in Rwanda from 3 to 60 medical clinics in the next three years, with the support of a major multinational corporation and in a public-private partnership with the government of Rwanda.

GHANA Launch a CFW franchise network in Ghana by opening 10 CFW medical clinics in 2010, eventually serving millions of Ghanaians with high-quality treatment and prevention.
