

# **PROJECT PROFILE**

## **FOR THE PROPOSED CONSTRUCTION OF A HEALTH CENTRE**

### **IN KASESE, UGANDA**

#### **1. Target Group**

The project is targeting women and children from over 900 economically poor families living in Rukoki parish and the neighboring villages.

#### **2. Project objective**

To contribute to improved health conditions of women and children with a view to enable their households get out of poverty by increasing access to maternal and child health services as well as general medical services to the community.

#### **3. Project Strategy**

- a. *Construct and health centre:* the project will construct a health centre complex with an out-patient wing, a maternity ward, pediatric ward and laboratory.
- b. *Equip the Health Centre:* the project will procure basic equipment necessary for offering health services to the target community.
- c. *Offer quality & timely services to community members:* this project will hire competent, self-motivated and committed personnel to

deliver antenatal, maternity, post natal, pediatric care and general medical services to the target community. Taking the rights based approach for collective inclusion; the project will offer free services to critically poor people, while other beneficiaries will be asked to pay a subsidized fee for the services.

The proposed health centre will be run by technical staff who will be overseen by a management committee comprised of individuals nominated by and from the target community along with the Board of the implementing organisation.

4. *Required Resources:* to achieve the objectives of the project, a mix of resources is needed. These include land, human resource, construction materials, equipment, and drugs among others.
5. *Resources already secured:* out of the several resources needed, CODEA – the implementing organisation has already secured a plot of land to accommodate the proposed health centre.
6. *Sustainability plan:* In order to ensure that the project continues and grows, the project will charge a reasonable fee at subsidized rates for services offered. And for women and children from critically poor households, services will be free of charge.
